Alternative and Renewable Fuel and Vehicle Technology Program
Demonstration of Integrated Biorefinery Operations
DE-FOA-00000096**

On April 22, 2009, the California Energy Commission released a solicitation entitled "American Recovery and Reinvestment Act of 2009 Cost Share: Alternative and Renewable Fuel and Vehicle Technology Program." In accordance with the solicitation, the Energy Commission may only issue awards to projects which received federal awards in response to the U.S. Department of Energy's American Recovery and Reinvestment Act of 2009 (ARRA) Demonstration of Integrated Biorefinery Operations Funding Opportunity Announcement. Final awards recommended for funding were based on successful evaluation of final proposals submitted to PON-08-010 and receipt of an ARRA award from the federal government.

The attached table represents an estimate of the amount of funding that the Energy Commission may award to each recipient. Factors the Energy Commission may consider include, but are not limited to, the amount of funding received from the U.S. Department of Energy, eligibility and budget for each part of the final proposed scope of work, and the amount of funding required to allow the project to proceed as described in the proposed recipient's final proposal.
